

# I HAVE THE GUTS TO CHALLENGE COLON CANCER!

I know that more than one third of colon cancer-related deaths could be prevented if adults over 50 had screening tests routinely.<sup>1</sup> I'm ready to challenge colon cancer, and want to take an annual screening test – just as I make sure to take my other routine tests, like a Pap test or PSA.

## I want to ask my doctor:

1. Do I need to be screened?
2. What are my options?
3. Can we talk about screening with the InSure FIT?
4. Can I use the *Blue Brush Method*?
5. What can I do to reduce my risk for colon cancer?
6. \_\_\_\_\_
7. \_\_\_\_\_
8. \_\_\_\_\_

Questions About the InSure® FIT™ or InSure® Quik FIT™ Test? For more information visit [www.doyouhavetheguts.com](http://www.doyouhavetheguts.com) or call 800-531-3681. The InSure FIT Test Kit is available from healthcare professionals. To request the InSure FIT test, speak with your physician.

For Physicians interested in ordering test kits, contact Enterix Inc., manufacturer of the InSure® FIT™ and InSure® Quik FIT™ screening test, at 800-531-3681.
